NUMBER 37

### FOUR MORE SOLDIERS COME BACK TO KELOWNA

Ptes. Bussill, Gibb, Smith and Plant Reach Home Again

Just in time for the Good Friday and Easter holiday, four more Kelowna men returned from Europe last Thursday afternoon and were accorded a warm if somewhat quiet welcome. These men consisted of Ptes. A. Gibb, Pte. Smith, F. O. Bussill and Plant. All of them have done good service for the Empire and deserve every form of welcome that can be given to them.

The very month that war broke out found Pte. Bussill with the forces, joining the 30th B.C. Horse. It was not until June, 1915, that he reached England, and three months later he landed in France with the 2nd C.M.R. He was soon in the thick of it, doing seven months trench duty at Ypres. At the battle of Sanctuary Wood, which was fought on the 2nd and 3rd of June, 1916, he received his first touch of Fritz's shells, but luckily this was not very serious and he was only in hospital about two weeks when he was sent back to the firing line again. His battalion then marched to the Somme, where he was in the thickest of the fighting, including Moquet Farm and Courcille. From the Somme he moved into trenches in front of Vimy, where he helped in holding the line until the Vimy Ridge battle, which he went through without a scratch. From there he went to trenches in front of Lens, but nature evidently thought that he had done his share and he was stricken with trench fever, which later necessitated his return to Canada.

Pte. A. Gibb left with the 172nd Batt. in October of 1916. He was soon through his preliminary training and was in France by December the same year. He went through a great number of prominent actions and trench fighting, but always escaped unhurt in spite of his proportions. After fourteen months of hard fighting in France he was sent back to England on account of rheumatism and was subsequently transferred to a home-coming contingent.

Pte. Pete Smith, who enlisted in Vernon and went overseas with the 47th Batt. in 1915, was not so fortunate with regards to seeing service in France. In spite of all attempts to get to the front he was not allowed to cross, but put into the mechanical transport corps in England instead, where he did duty at Bramshot Camp. Finally he was listed to return to Canada.

Pte. Plant went overseas at a later date with a detachment of Foresters. He is home on leave to look after some private affairs. All the men are only here on furlough at present and have to report at Vancouver in 15 days.

### Lawson's Store is Victim of Theft

Detention of Two Chinamen Fails to Discover Goods

The disappearance of a suit of clothes from Lawson's store on Saturday evening led to the arrest of two Chinamen by Chief Constable Thomas the same night, but as there was no trace of the clothes in their possession and as they could not be proved guilty of the charge of shop-lifting brought against them they were later given their freedom, although their arrest led to opium being discovered on the person of one of them, Ah Hing, for which he was fined \$25.00 and \$2.50 costs by Magistrate Weddell on Tuesday.

Suspicion was entertained against these two men because they went into Lawson's store on Saturday morning, returned again in the afternoon when they bought some small articles, and returned a third time between 5 and 6 o'clock in the evening when only Mr. DeHart was in that part of the store, Mr. Meikle and Mr. Ball being away for dinner. On their last visit, after much manoeuvring, they got Mr. DeHart to go into the warehouse at the rear, while there he heard the front door click and saw one of the Chinamen coming back into the store. Later, he missed a blue suit valued at \$45, but it was not until some time after this that he realized that possibly it had been stolen. At 10.05 p.m. the police were notified and a search led to the arrest of the two men and their identification by Mr. DeHart. They were held until Tuesday while investigations were being made, when the charges were withdrawn.

### FRIDAY FIRE ALARM

For the first time for several weeks a run was given to the Kelowna Fire Brigade on Friday last, the occasion being nothing more than a wood shed. In clearing up the garden at the old "Garth" premises on Ellis Street a fire had been lit near to the wood shed, which was covered with the dead remains of a last year's creeper. The wind veered the flames round to the dry creeper which suddenly leapt to the flame, threatening the woodshed, which was adjacent to the house. Prompt assistance quelled the danger and the brigade were soon back to the pursuits of their Good Friday holiday.

### MORE MILK TESTS

Four samples of milk were taken from licenced dairymen during the month of March by Chief Constable Thomas for examination and testing. The results in percentage of butterfat were: Norman Day, 4.3; John Birch, 4.2; D. C. Middleton, 4.2; Robert Ritchie, 4.1.

### Council Decides Many Small Matters

Development Work of Occidental Fruit Co. Brings Up Many Matters

On account of the Easter vacation, the regular fortnightly meeting of the City Council which should have been held on Monday was postponed until the following evening. Although a great number of minor matters had to be given attention, there was the usual lack of matters of public interest.

The Kelowna Hospital wrote stating that they were willing, under the circumstances, to reduce their bill for treatment to Mr. Wilson Henry to an even \$1.00 a day, which would place same at \$215.00. This was accepted by the Council and was entered on the finance committee's report for payment.

Mr. W. E. Fuller's recent request that his land be again assessed as acreage was consented to on condition that he give the City a deed to half of the Water Street survey, which had been one of the conditions upon which the City had originally agreed to pass his plan of subdivision in connection with the Fuller-Quinn estates.

Matters in connection with Mr. L. Hayes' new factory occupied considerable attention. An offer from Mr. Hayes of \$200.00 for the purchase of the north-westerly 75 feet by 148 ft. of the westerly portion of Block 42, plan 462, was accepted, providing that the original owner prior to the tax sale, Mr. Hunford, did not wish to re-purchase same, and that Mr. Hayes pay the expenses of obtaining deed and title. The Occidental Fruit Co., Ltd., was also given permission to lay track on the east side of the line running north from Cawston Ave. in the rear of the Occidental property, in registered plan 660. A statement expressing approval of this track being laid was submitted by the adjacent property owners, being signed by Greta Cosens as attorney for C. F. McIntyre; Alcide Bornais and the Orchard City Evaporating Co. The Occidental Fruit Co. also asked for the removal of the sidewalk from in front of Lots 4, 5, 6 and 7, on Ellis Street in front of their building and announced their desire to put in two wagon scales on Ellis Street, one for their cannery and one for their vegetable establishment. As this matter was not quite clear it was laid on the table pending further information being obtained.

Another application was from the C.P.R. for water connections at the freight shed by the car slip. This water was wanted for fire protection purposes. The request was referred to the Light and Water Committee.

Some discussion took place as to whether the capacity of the sewer connection to the canneries was large enough to carry off the waste water this year, and it was decided to ask the canneries to run their cooling water into the lake instead of through the sewers.

Ald. Mantle made various suggestions as to improvements for Willow Ave., Water Street and Beach Avenue. These met with approval and the work was left in the hands of the committee in charge.

The suggestion that light be supplied to the footbridge over Water Street was negatived, the cost of such an undertaking run-

(Continued on page 6)

### Kelowna Auto Club Born on Tuesday

Autoists Organize to Improve Roads and Look after Tourist Traffic

The provincial Court House was the place chosen for the preliminary organization meeting of the local good roads club and automobile association, which the Board of Trade have been trying to put into existence for some time past. The meeting was held on Tuesday afternoon, some twenty-five persons attending.

The first business done was to elect officers and a secretary, which resulted in Mr. F. M. Buckland being chosen president, with Mr. J. D. Williams as vice-president. Mr. J. W. B. Browne was elected secretary. Nominations resulted in a committee being formed of Messrs. P. DuMoulin, A. L. Soames, S. T. Elliott, L. V. Rogers, D. H. Rattebury, W. C. Renfrew and Geo. Monford. This committee was so elected so as to have one of the executive representing each of the various outlying districts.

After definitely deciding to form up and become a fully-fledged organization as rapidly as possible, incorporating under the Benevolent Societies' Act, it was decided to name the organization the Kelowna Automobile and Good Roads Association.

The drawing up of the necessary rules was left to the committee who will meet on Saturday next for this purpose and report to a further general meeting which will be held on Thursday, April 11.

Some discussion took place as to the work for the year, but this, too, was subsequently left for the committee to talk over and advance suggestions. In order to assist them in compiling their programme, ideas were asked for, but these chiefly consisted of placing sign posts in the vicinity at all needful points. It was decided, however, that the club's territory should extend from Okanagan Centre south to Peachland. It was also suggested that, where possible, uniformity of system should be maintained with Penticton and Kamloops, with the idea of subsequently forming a co-operative scheme of work throughout the Okanagan and adjoining districts. Favor was also given to plain black and white sign posts, and not yellow ones such as had been installed by the old Vernon Club, which no longer existed.

The membership fee or annual subscription was left for discussion after the programme of work had been decided upon. The general feeling was that it should be kept low, so as to aid in securing a large and complete membership.

Before the meeting closed, a vote of thanks was tendered to those members of the Board of Trade who had been instrumental in bringing about the organization of the Club, for the work they had done and for the results they had achieved.

The third food demonstration by Miss Alberta M. MacFarlane will be given on Monday, April 8, at 3 p.m. in the Domestic Science Kitchen. Subject: "Meat Substitutes."

Mr. Dave McGuire is spending a few days Easter vacation at his home here.

### Will Standardize All Fruit Packages

Delegates from B.C. to Ottawa Carry Out a Successful Plan of Campaign

On Monday afternoon, Mr. J. E. Reekie returned to Kelowna from Ottawa, where, together with Mr. Geo. Chick, he was one of the delegates of the B.C. Fruit Growers' Association at the conference to discuss things of vital interest to farmers and producers. Mr. Reekie states that the representatives of the B.C.F.G.A. believe they have every reason to be well pleased with their trip, for, so far as is known at present, all their requirements will be complied with. Their requests have still to pass the approval of the House at Ottawa, but having secured approval of their requirements they feel that with official recommendation to support their resolutions any changes that may be made will be but trifling ones.

The greatest accomplishment of this delegation was the approval of a standard package for apples and other fruits, which was the main purport of the delegates. The resolution passed on March 26, and which will no doubt shortly become law, was worded as follows:

1. That the United States standard apple barrel be adopted for Canada. Dimensions: 17 1/2" head diameter, 28 1/2" stave, 64" circumference at bulge, 7.056 cubic inches, content. Further suggested that present manufactured stock may be used during the season 1918-19, but that after June 1, 1918, all staves cut for apple barrels shall be of the above dimensions.

2. That the American or Washington apple box, measuring 18x10 1/2 x 11 1/2", inside measurement, be adopted as the standard for Canada and for exporting to such countries as have no legal requirements of their own; and that when exporting to countries which have legal requirements, permission be given to export in the box required by the country to which they are being exported.

3. That a standard apple crate be adopted in Canada which shall conform in dimensions and size to the standard apple box, with slats at least 3/4 inch apart.

4. That the following three sizes of peach boxes be made legal in Canada: 18x11 1/2 x 4 1/2", 18x11 1/2 x 4", 18x11 1/2 x 3 1/2".

5. That the legal Canadian pear box be of the following dimensions: 18x11 1/2 x 7 3/4", inside measurement.

6. That the legal Canadian

(Continued on page 6)

### WORK OF OKANAGAN AMBULANCE LEAGUE

Decrease in Month's Receipts Leaves a Deficit on Society's Books

During the past month the following articles were sent to Red Cross headquarters: 46 suits of pyjamas, 2 pyjama coats, 42 shirts, 42 ties, 71 stretcher caps, 36 personal property bags, 138 pairs of socks, 158 face cloths, 1 pair of bed socks, 12 handkerchiefs, 12 surgeons' gowns, 2 pillows.

Of the above, Benvoulin contributed: 27 pairs of socks, 6 personal property bags, 45 stretcher caps, 13 surgeons operating gowns, 12 handkerchiefs.

Okanagan Mission: 11 suits of pyjamas, 8 stretcher caps, 2 pairs of socks, 1 pair of bed socks.

Westbank: 11 pairs of socks. The following contributions are gratefully acknowledged: Mrs. Binger, 2 pairs socks; Miss Lees, 1 pair of socks. The League takes this opportunity to thank Miss Glenn for the ties she is making for the day shirts.

Cash Contributions—J. Ball, \$1.00; Mrs. Burne, \$2.00; Mrs. Denison, \$5.00; Mrs. Wilson, \$2.00; Members' Fees, \$1.00; Ellison Girls' Club, \$43.00; Miss Jones, \$5.00; Mrs. McCarthy, \$5.00; Mrs. Brent (raffle of picture), \$12.00; Mrs. McPhee, \$3; Prisoners of War Fund, \$51.75; Mrs. Rowcliffe, \$2.00. Total received, \$132.75. Balance from February, \$62.18; making \$194.93. The expenses for March were \$219.17, leaving a deficit of \$24.24.

### C. P. R. Officials Meet Here Tonight

At 7.30 this evening in the Board of Trade building a number of C.P.R. officials are meeting shippers and business men to discuss traffic and other arrangements for the coming year. It is expected that a number of business men from Vernon and Summerland will also be present to discuss similar matters with the Company's representatives.

Mr. O. E. Fisher, the manager of the Kettle Valley, and Mr. M. O. C. Walker, the C.P.R. superintendent of Weighing and Refrigeration Service, arrived in the city on this morning's boat. It is expected that the other visitors who will come in this afternoon will include Mr. F. W. Peters, the general superintendent of the B.C. division; Mr. W. B. Lannigan, freight traffic manager of western lines; Mr. E. D. Cottell, superintendent of car service; and Mr. T. C. Macnabb, local superintendent.

## DELCO-LIGHT

### Electricity For Every Farm

At last a complete electric plant that is so simple, reliable and economical, that electric light and power are now available anywhere and for any purpose.

Now you may have the comfort and convenience of electric light in your home and out-buildings—brilliant, cool, safe.

Delco-Light will do most of your chores because it provides power for the smaller machines.

Let us show you how it will pay for itself in time and labor saved.

Cross Society.

## Orchard Run

Is the City of Kelowna liable for an innumerable number of fines of twenty dollars each, amounting altogether perhaps to as much as half a million dollars? Such is the question which has been discussed by various people in the city during the last week, but the answer is still not forthcoming. As is well-known the United States unit gallon is roughly twenty per cent smaller than the Dominion unit gallon. Owing to this discrepancy, the Dominion government, in an effort to protect Canadian citizens, has made it a penal offence to sell anything by American measure, and the offering for sale in Canada of any goods solely marked in some unit of United States measure is illegal. Goods, whether liquids or solids, may be put up and sold without any reference to the measure of the container, but if any reference whatsoever is made to the quantity by measure it must be in Dominion or Imperial measure. Every person or corporation who commits an infraction of this Dominion law is liable to the severe penalty of twenty dollars for each sale. The City of Kelowna measures its water to the consumers by American gallons, through meters marked gallons, while they go still further and apparently break the law by stating on their invoices: "Measure to be in American gallons." Unless they are protected by some clause in the act this would appear to be a distinct violation.

## PROVINCIAL ITEMS

The provincial voters' lists closed last Saturday.

The Baker Pool Room at Pen-tiction was broken into last week and \$60.00 in cash was stolen.

The Chilliwack branch of the I.O.D.E. have sent over 3,200 pairs of socks to the Red Cross during the last year. A sum of \$6,630 in cash had also been raised.

All the game wardens of the province, about 40 in number, were dismissed from their appointments last Saturday. Under the new act, every provincial police officer and constable will be ex-officio a game warden.

W. I. WILL ENROLL  
WOMEN WORKERS

To avoid complications or overlapping in connection with the organizing of women and girls for fruit picking and other farm work in British Columbia, Miss Gertrude M. Perry, National Service Secretary, has asked the Kelowna Women's Institute to register the local help, and the following committee was appointed at the last meeting of the Institute: Miss Reekie, Mrs. W. Haug and Miss G. Hunter. Women or girls wishing to enroll for this work may hand their names to the committee.

Kind and careful Canadian cooks can keep killing kaiserism in their kitchens by ekonomising.

WOMAN FOOD EXPERT  
TO VISIT KELOWNAMrs. Jean Muldrew Will Be Here  
Next Week

The War Food Expert for the Canada Food Board, Mrs. Jean Muldrew, is visiting Kelowna next week, and on Thursday evening, April 11, will address a public meeting in the Board of Trade rooms, at 8 p.m. Mrs. Muldrew is a speaker of wide experience and is a woman who leaves not only a mighty reputation behind her for herself, but she leaves an impression of the Empire's needs, together with a wealth of information regarding food preparation which working together cause practical results. Her present tour of the province is in the interests of both greater production and food conservation. She can discuss the latest food regulations and her addresses are equally as interesting to men as to women.

In addition to the above meeting, Mrs. Muldrew is arranging to meet the Women's Institute in a special conference on the afternoon of Friday, the 12th instant, at 2.30, in the Prisoners of War rooms.

## BOY SCOUTS' COLUMN

Edited by "Pioneer."

## Troop First! Self Last!

Duties: Orderly patrol for week, Beavers; next for duty, Wolves.

Parades: The combined troop will parade at the Club-room on Wednesday and Saturday, 10th and 13th April, at 2.15 and 7.15 p.m. respectively. The combined troop will parade at the Exhibition Building on Friday, 12th instant, at 7.30 p.m.

Scout A. Clarence, of the Wolves, passed his second-class Ambulance test on Friday, 29th March. Recruit W. Walker is attached to the troop and posted to the Wolf patrol for instruction.

Scouts E. Small and E. Hunter of the Otters, left town for their first-class hike on Easter Monday with a Shetland pony as a pack horse, carrying grub and other impedimenta. At the time of writing we have not heard whether they returned or not, but they have evidently had the hike.

The Sons of England have very generously come to our rescue with regard to a piano, and have loaned us theirs for a month. We appreciate their kindness very much, indeed, and wish to thank Mr. Lee and his committee for their assistance. We also wish to thank Mr. Cunningham very much for moving the piano to the Club-room for us, which is another saving of expense. We wish to thank Mr. R. F. Morrison for letting us have the use of his hall and piano last week, for our first rehearsal of songs for the concert. As we have now been able to secure a piano all future rehearsals will be held at our Club Room, which is a great saving of time and trouble to us.

Owing to the weather looking so threatening early on Saturday morning last, the hike to Crawford's Falls for that day was called off, and took place on Easter Monday instead. The troop was only fourteen strong on this hike, and it is to be regretted there was not a better turn out as it was such a fine day, although the misfortune was attached to those who did not attend. We left the Club-room at 8.15 and reached the falls in two and a half hours. We left the falls at a quarter to two and arrived in town again shortly before four o'clock. As a result of the frost there were many impromptu slides in getting down below the falls and to the creek bottom, for there was just enough frost out of the ground to make the surface loose and slippery.

House  
Furnishings

Come and see what we carry in the way of Furnishings for the Home—that's all we want you to do—"just look," when you do you will buy. The materials harmonize and the prices are reasonable.

## Peachland Fruit Union Holds Meeting

Larger Tonnage Cuts Expenses  
and Provides Surplus

The annual meeting of the Peachland Fruit Growers' Union was held last week in the Orange Hall, at Peachland, with the President, Mr. W. Douglas, in the chair. The fifth annual report and balance sheet showed that the organization had had a very successful year, the total shipments for the past season being 47,027 boxes, against 37,165 for 1916. The profit in the feed department was \$2,910.00. To add to the sinking fund, \$500.00 had been invested in Victory Bonds, and the sum of \$650.00 had been set aside for contingencies.

Mr. McDowell, the manager of the Okanagan United Growers, in an address to the meeting, emphasized the need of increased tonnage for 1918. He denied that Kelowna and Penticton were breaking away from the Union. Messrs. C. L. Lowe, J. A. Grant and Powell were also speakers, the latter finishing up his speech with the statement that the Hon. J. Oliver, now the Premier, had said to Mr. Trask that if the growers in the Okanagan did not hang together they would hang separately, and this, Mr. Powell declared, was the keystone of the whole business.

## HOW TO PACK APPLES

Instructive Illustrated Booklet  
Issued by the Dominion De-  
partment of Agriculture

If the few small individual packers and shippers of apples who prefer not to ship their goods through one of the local shipping concerns would send to the Publications Branch, Department of Agriculture, Ottawa, for Bulletin No. 2 of the Fruit Commissioners' series, which can be had free for the asking, and which is entitled "Modern Methods of Packing Apples," possibly they would assist in protecting their own reputation as well as that of their district, while at the same time giving infinitely greater satisfaction to the dealer and the consumer. Even those who have been through the apple packing course will still find much valuable information in the booklet, while those who have been unable to take such a course will find a wealth of information and instruction.

The bulletin, which has been compiled by the Chief Fruit Inspector of the Prairie Provinces and the Apple Packing Expert of the Fruit Branch deals very minutely with the subject, describing everything and every feature relating to apple packing, both in barrel and box with plentiful illustrations, even to the making and marking of barrel and box, the use of wrapping paper, the grading of the apples and the requirements of the law.

Dr. Karl Muck, the conductor of the Boston Symphony Orchestra, was arrested last week under the Enemy Alien Act.

Out of the 75 persons killed in a Paris church by the German long range gun last Friday, 58 of them at least were women. On Saturday morning another shell caused 45 casualties, of whom 20 were women and children.

The British column on the Euphrates in Mesopotamia have advanced to a point 83 miles beyond Hit. British troops on the Jordan have successfully cut the Hedjaz Railway and are making a steady headway.

British planes destroyed sixteen German planes last Thursday and nine on Friday. Besides terrific quantities of bombs and explosives, over 250,000 rounds of ammunition were fired from planes at definite targets in one night recently.

## Peas as Food and Feed

Both Seed and Vine Form an  
Excellent Stockman's Crop

(Experimental Farms Note.)

The high price at which peas have sold on the market for the last two years has given a decided impetus to their production. Canadian production in 1917 exceeded the previous year by nearly a million bushels. This is as it should be. The production of peas is lower than that of any of the cereals. Insect pests, diseases and the low price decreased the production of this important legume previous to the war, but since then, due to the rapidly rising price of the last three years, the acreage has been greatly increased, especially in the provinces of Quebec, Saskatchewan and Alberta. When we consider the numerous ways in which one can utilize this crop either in the seed or on the vine it is surprising that pea growing has not received an even greater impetus than it did last season.

Split peas and whole peas especially in Canada occupy a prominent place in human diet in that delectable food pea soup. Pea meal is a very proteinaceous food excellent for use in a balanced ration for stock-feeding purposes, furnishing as it does a low priced concentrate. Considering the high price of concentrates, the farmer who has a crop of peas, that he can convert into pea meal, is doing much to free himself from danger of exploitation at the hands of feed dealers. Un-threshed peas are of great value for sheep-feeding purposes, being an ideal winter roughage for breeding ewes while they are likewise an excellent feed for young cattle. They can also be successfully grown with oats and ensiled, furnishing where corn cannot be grown one of the most valuable silage foods, or again the same mixture can be cured as hay and fed with profit throughout the winter. As a summer pasture for hogs, they return profitable gains, an acre of peas forming a most valuable adjunct to the summer ration coming in at a time when the young shoats are able to make the best use of this kind of feed.

The successful culture of peas is largely a matter of climate. Being a legume instead of a cereal, they are classed among those crops known as soil improvers. While they do not do their best on light soils particularly during a period of dry weather, yet almost any heavy well-drained soil that has not been robbed of its virgin fertility will produce a good crop. The best results are obtained by putting them on sod land which has been ploughed the previous autumn and thoroughly top-worked before seeding.

Peas cannot be sown as early as wheat or oats, owing to the tenderness of the young vines which a late spring frost is apt to damage seriously, also the cold and dampness of the seed bed may cause a rotting of the seed. It is impossible to give an exact date when it is desirable to start pea seeding, but this is a general rule that may be followed: If you have sown your wheat on the earliest date possible, the seeding of peas may be commenced from ten to fourteen days afterward. This rule might be modified in certain localities, depending entirely on the local weather conditions.

The many ways in which one can utilize a few acres of peas with profit, should tend to make this one of our most popular crops instead of occupying, as it does, a lower place than any of the Canadian cereals. There are no cultural difficulties to discourage the farmer while the chief insect pest, the weevil, can always be successfully controlled by the sulphide treatment.

There is a large place for peas in our farming and stock-feeding

practices, much larger than has been thought by most of our practical agriculturists.

## Category B Men Are Called for Service

Needed for Railway Construction  
and at Bases

Official notification has been received from Ottawa by R. S. Lennie, Registrar for this province under the Military Service Act, to the effect that Category B men will be called to the colors at once. The telegram to Mr. Lennie stated that questionnaires should be sent out at once.

The Registrar stated that there were 1,440 Category B men in the province, but that this number might be increased. The call for men must be answered and the work of examination will

commence at once. Mr. Lennie said that in calling Category B men the idea of the military authorities was to relieve Class A men wherever possible for service in the firing line.

Category B men are those who though unfit for actual service in the firing line are still in good physical condition and may be used in the Army Medical Corps, the Dental Corps, forestry, pioneer, labor and construction units. They must have good eyesight and be able to march five miles to and from work. All men so called will be given an opportunity to appear before the exemption tribunals if there is a claim for exemption and the appeal courts will be open to them just the same as to those already examined.

## A Ford Car Takes the Place of All These Things

WHEN you own a Ford you can do away with many articles that are a source of continuous expense to the man who still drives a horse. For instance, not only your driving-horse and buggy, but the single harness, blankets, whips, currycombs, brushes, horse-shoes, pitchforks, feed-bins, etc.

In their place you have a speedy, dependable, dignified, roomy Ford Car—complete in itself. It is vastly superior to the narrow, cramped buggy that travels so slowly. And when a Ford is standing idle it does not eat three meals a day, and it requires no "looking after."

A Ford will save you time, trouble, and money. It is the utility car for the busy farmer and his family.

## EDISON'S Latest Triumph

His 1918

## Diamond Amberola Phonograph

This is the final improvement perfected by the master mind of the great inventor.

And—aside from the marvellous clarity and purity of tone—its distinguishing feature is the Permanent Diamond Point.

When you are enjoying the New Edison, you don't have to bother with changing needles. There is no danger of ruining records with imperfect needles—nor delay in adjusting needles.

The Edison Amberola is always ready to entertain you and your friends,—and to reproduce the world's best music in a style to make you doubly delighted with this wonderful instrument.

## Edison Blue Amberol Records

Mr. Edison has so perfected the art of phonographic recording that every sound wave—from the crashing thunder of military bands to the fairy whisper of a violin—is caught by his recording instruments and reproduced on Blue Amberol Records. Here are some favorites, old and new.

**HEART SONGS**—Forgotten: Ben Bolt; O! That We Two Were Mating; When Dreams Come True.

**SACRED**—Ave Maria—Flee as a Bird—Love to Tell the Story.

**BALLADS**—O Promise Me—Good Bye—In the Garden of the Gods—Ever of These I'm Fondly Dreaming.

**BANDS**—Gloves—Flying Squadron March—Ballet Egyptian—Light Cavalry Overture.

## Electricity and Farm Efficiency

Not many years ago, when the value of farm land was not so high as it is today, the farmer found it comparatively easy to raise sufficient crops to pay him for the money invested. This condition has changed, and the farmer of today must recognize farming as a business, and place it upon an efficient basis in order to raise sufficient crops to make farming a paying investment. This is exactly what is taking place, and one of the big factors in placing farming on an efficient basis is the use of power, both gasoline and electric, the latter if the farmer is fortunate enough, for with the latter comes light and safety. In many cases, small power plants are pumping water for him, operating the churn, cream separator, making his chores easy and in many ways saving time and labor.

It's a great day for the farmer and his family when they can press, for the first time, an electric button in their own home. It's a great day, for it marks the beginning of a new life for them—it means that the drudgery, the hardships and many of the burdens of life have been removed. Yes, it means more than that, for it makes possible the enjoyment of new comforts and new conveniences.

Besides pumping water, and providing safe lights in barns and other places, the washing machine, churn, cream separator, sewing machine, vacuum cleaner, electric iron, electric fan, and many other household appliances can all be operated by electricity. The electric light plant also makes it possible to have running water in the kitchen, bathroom, and other parts of the house.

The boys and girls on the farm are also relieved from much hard work and naturally they appreciate the comfort and attractiveness that electricity brings to the home. Another big problem that electric light and power on farms helps to solve is the problem of the hired labor. Labor often cannot be bought these days, but an electric plant can and the saving in time and pay-roll soon pays the cost of electric plant or the power engine and so assists in the call for greater production in spite of the scarcity of man power.

## A NEW HARD WHEAT

A further accession has been made to the bread basket of Canada in a new wheat that has been bred at the Central Experimental Farm, Ottawa. The new variety which has been called Ruby resembles Marquis, the wheat that now stands at the head of all Canadian wheats. The new sort is earlier and, therefore, by its introduction the great growing area of Canada will be extended considerably northward. The new variety is announced by the Dominion Cerealist, Dr. Chas. E. Saunders, in the March number of The Agricultural Gazette, the official organ of the Department as follows:

"The new wheat, which has been named Ruby, Ottawa 623 possesses characteristics in ripening and other qualities midway between Marquis and Prelude. It is beardless, possesses hard, red kernels, gives a fair yield, and makes flour of the highest quality in regard to colour and strength. Bread made from it ranks in the first class. This wheat is the result of a cross between Downy Riga and Red Fife. Downy Riga was produced from two early sorts, Gehun, an Indian variety, and Onega from Northern Russia. Ruby is recommended for trial where Marquis does not ripen satisfactorily. A very limited distribution of five-pound samples is being made to farmers requiring an early sort. A sufficient crop will be grown this year on the Experimental Farms to provide for a generous distribution next Spring."

## The Soldier's A B C

On a Card, as Published in England.

A—stands for Asses, oh, isn't it bliss, To think we are asses for being in this.

B—stands for beds and blankets so nice, When we get in bed we are colder than ice.

C—stands for Cooks, who are spoiling the food, Also for Canteen, their beer is no good.

D—stands for Derby, and when soldiers dress, They mostly associate Derby with "scheme."

E—stands for Easy, but Tommies all say, It just stands for Extra Parades Everyday.

F—stands for Food, and it oft makes us curse, The food we've been getting now gets worse and worse.

G—stands for Grumble; I'll make you a bet, You've never heard one of us grumbling yet.

H—stands for Home, and between you and me, We're longing to get back, our homes just to see.

I—stands for Idiots, the Kaiser and Willy, When they started the war they must have been silly.

J—stands for Jellicoe, Jutland as well, The place where he blew the Germans to hell.

K—stands for Kaiser, his head's like a log, He's a rotten old pig-headed dirty old dog.

L—stands for Labour, and sometimes we swear, When we're digging trenches somewhere over there.

M—stands for Meat, I don't want to be rude, If roasted or fried, it's invariably stewed.

N—stands for Nothing—I cannot say more, What we shall get at the end of the War.

O—stands for Officers, top of the rank, Also for the orders they give you with swank.

P—is for the Pessimist who lives at our camp, Also the Parky old huts that are damp.

Q—stands for QUERY, when we're walking out, They think we're soldiers, but still there's a doubt.

R—is the Regiment, and by the powers, There isn't a rotten regiment than ours.

S—is for Square, where we go on Parade, Also for Swear-words we use, I'm afraid.

T—stands for Traitors, a name I don't like, It stands for the Traitors who went out on strike.

U—stands for the U-boats, Germany's last chance, But our gallant old Navy will lead them a dance.  
V—is Vaccination, it's all tomy rot, To say it is voluntary, 'course it is not.  
W—is the Wicked Warfare and strife, Also for your bird, whose another man's Wife.  
X—is a thing on the cross, it is said, So keep a still tongue, it makes a wise head.  
Y Z.

## SUN'S ECLIPSE TO BE VISIBLE IN KELOWNA

About 95 Per Cent of Sol's Face Will Be "Occulted."

The forthcoming year will yield at least one notable astronomical event, regarded from the purely spectacular and lay point of view.

This will be the eclipse of the sun on the afternoon of June 8, noted in the calendars as "visible as a partial eclipse throughout North America; in the United States the total phase will be visible from the State of Washington to Florida in a belt about 120 miles wide at the west end and 50 at the east. From an elevation the moon's shadow may be seen advancing eastward over this track at terrific speed, making the 3,000 miles in 47 minutes. The speed will be least on the Pacific and greatest on the Atlantic. Along the Atlantic seaboard the sun will set more or less eclipsed. South of belt of totality the northern limb of the sun will be eclipsed, and north of it the southern, and the size will decrease with the distance about one digit, or one-twelfth of the diameter of the sun, every 240 miles."

### Visible in Kelowna

The eclipse will begin about 1:40 p.m. on June 8. The greatest obscuration will be about 3:05 p.m., and the eclipse will be over at 4:20 p.m., which means that observers will have a little more than two and a half hours to observe the phenomenon.

At the time of the greatest obscuration about 95 per cent of the sun's disc will be occulted by the moon, and the diminution in light will be quite marked. The "line of totality" passes through the State of Washington about 150 miles south of Kelowna, and doubtless numerous astronomers and others will travel considerable distances to have an opportunity of seeing the total eclipse.

**City Comforts**

Why pump water by hand when a Leader Home Water System will deliver it under high pressure—anywhere—for less than 10¢ per 100 gallons?

## Military Service Act

### Important Announcement to All

## EXEMPTED MEN and to the Public Generally

IN dealing with the very large number of claims for exemption brought forward for consideration in connection with Class 1 under the Military Service Act, it has occurred, as was inevitable, that as a result of false statements and difficulties put in the way of investigation, some individuals have secured exemption whose proper place is in the Army.

It is not the intention of the Government to allow these men to evade permanently their obligation to bear their part in the military defence of the Country and of the ideals for which we are fighting. To do so would defeat the purpose of the Act, and cause grave injustice to men in the second class necessarily called out to fill their places.

### Exemptions Granted on False Grounds

It is, therefore, proposed to scrutinize carefully all exemptions granted to date in order to separate those which have been granted on false or insufficient grounds from those that are well founded.

With this object in view the various Registrars under the Military Service Act have been instructed to issue a series of questionnaires to exempted men. These questionnaires must be filled up correctly and returned promptly under penalty of forfeiture of exemption for failure to do so.

### Exempted Men Who Have Changed Address

It is therefore important in their own interest that all exempted men who have changed their address since their exemption was granted and who have not already notified the Registrar of such change should notify him at once. Under the Regulations it is the duty of exempted men to keep the Registrar advised of any change of address, and failure to receive the questionnaire by reason of neglect of this duty must be treated as equivalent to failure to return the questionnaire after receipt.

### Citizens Urged to Assist

In many instances information has been furnished by members of the public which has led to the cancellation of exemptions obtained by false or misleading statements. Further co-operation of this character is invited. The Government regard it as the Duty of all loyal citizens, not only to the Country, but to the men at the front, to assist in this way in securing reinforcements on a just and legal basis. Correspondence of this character will be treated as strictly confidential and will receive the fullest investigation.

Quite an exciting runaway occurred on the wharf last Saturday morning at about 10.30, when Mr. Coxworth's team which was standing near the head of the wharf by the Dominion Express shed, suddenly bolted, swinging across the wharf to the roadway. In leaving the wharf, however, the two horses tried to part company at the gatepost, one going in each side. A general smash-up followed, in which harness, pole and whippetrees played the most important parts. The horses were still not contented, however, and kept on pulling until something gave way, and this time it was the gate-post, which relinquished its emplacement to the fierce onslaught of the enemy.

**RETURNED SOLDIER WEDDED YESTERDAY****Kennedy-Pettigrew**

The home of Mrs. Pettigrew, Richter Street, was the scene of a quiet wedding at 7.30, on Wednesday morning, when her eldest daughter, Ida Beatrice, was united in holy matrimony to George Nelson Kennedy, the ceremony being performed by the Rev. E. D. Braden. The bride, who was dressed in her travelling attire, was attended by her sister, Olive, while her brother, Jim, acted as best man to the groom. After the ceremony, breakfast was served, and later the happy couple left on the "Sicamous" for Vancouver.

Upon their return, Mr. and Mrs. Kennedy will take up residence in the house formerly occupied by Mr. C. E. Smith, on Richter Street. Mr. Geo. Kennedy, who not so long ago returned wounded from France as Sergt. Kennedy, is the second of Kelowna's returned warriors to tie the nuptial knot. The happy pair have been the recipients of many gifts and good wishes for their future happiness from a large circle of friends.

Because the City Engineer, Comptroller and Treasurer of Victoria went out for a fishing trip last Saturday instead of being at their customary official duties, the Mayor of that city suspended them, and sent recommendation to the council that they be not reinstated.

# RENNIE'S War Time Production Seeds

THERE must be no "slackers" this year, either among the seeds or the growers. Every man and woman with garden space, must produce to the limit of his or her ability. And that is why Rennie's seeds are so essential—live, vigorous seeds from tested stock, to ensure record crops.

Fines and costs imposed and paid..... \$25.00  
Trade licence money collected..... \$105.00  
Dog licence money collected 72.00  
Total..... \$202.00

## Miss George Washington

Lies, like bricks, must be piled one upon the other in order to construct any semblance of an edifice of truth. One single lie, like a single brick, is comparatively useless, except for the purpose of hurling it at someone else. But even then the chances are that more will have to follow unless the aim was exceptional.

Upon this very sound philosophy of life there is built a screamingly funny motion picture farce entitled: "Miss George Washington," in which delightful little Marguerite Clark stars for the first time since the renewal of her contract with the Famous Players Film Company. It is the featured attraction at the Kelowna Theatre next Tuesday evening.

Forsaking all semblance of truth for the nonce, Miss Clark becomes the ally of deception, as the result of telling one untruth in order to deceive the head of the private school in which she is a pupil. The richly humorous side of the situation is the fact that she is so innocent in her appearance that she has received her mother and others into believing that she has never uttered a syllable of fiction since the day she was born. As a result of this erroneous impression, she is presented with a Truth Medal. But her immediate friends—who know her ability—have dubbed her "Miss George Washington" and they concede to her without a dissenting voice the all-round fibbing championship of the world. It might be said in extenuation of the girl's propensity for deception that her father is a diplomat and that she comes honestly by her ability.

Mr. D. Leckie, the manager of the Western Cannery, Ltd., was down the lake on Saturday looking after the firm's interests there.

## RE-OPENING OF SOUTH-END STORE

L. O. Brown has leased the O.K. Lumber Co.'s store at the south end of Pendozi Street, and will open with a fresh stock of Staple Groceries, Flour, Feed, etc., on or about Saturday, April 13th.

The business will be conducted on the Strictly Cash and Carry system, though arrangements will be made by which those so desiring may have their goods delivered at a small additional expense.

While not desiring to be known as a cheap, cut-price store, the long-established and undeniable accommodation and luxury of Credit and Delivery must be taken into consideration, and allowance will be made by reducing the price of the goods as much as possible.

This business will be entirely separate from the O.K. Lumber Co., though I am still acting as secretary and will continue to look after the interests of that Company.

The store is being opened with the idea of accommodating the residents of the South End of the City and surrounding districts, and I trust that you will find it an accommodation and favor me with a goodly share of your patronage.

37-1 L. O. BROWN.

## WILL STANDARDIZE

ALL FRUIT PACKAGES

(Continued from page 1.)

prune box be 18x11½x3½", inside measurement.

7. That the following amendments be made to the Inspection and Sale Act, Part IX:—

(a) Fancy grade eliminated.

(b) No. 1 to remain as at present.

(c) No. 2 to be defined: "Unless such fruit includes no culls, is sound, nearly of medium size and same color, and not less than 85 per cent. free from scab, wormholes, bruises and other defects and properly packed."

(d) That a Domestic Grade be embodied in the Act and defined as follows: Unless such fruit includes no culls, is sound and not less than nearly medium size for the variety, 85 per cent. free from wormholes but may be slightly affected with scab and other minor defects, and properly packed.

(e) That Grade No. 3 be defined to include no culls and be properly packed, and the definition of the word Culls be left in the hands of the Department of Agriculture.

8. That all packages of fruit offered for sale shall be well and properly filled at point of shipment, and in cases where inspectors find evidence of under-filling they shall have the right to weigh or measure the contents of the package at point of shipment in order to determine whether said package had been well and properly filled.

9. That the name and address of the packer shall be placed on all open packages.

Rioting at Quebec broke out afresh on Friday night and mobs of young men paraded the main streets of the city. The unruly element soon got the upper hand and attacks were made upon the newspaper offices of the Chronicle and L'Evenement, two papers which have supported the Military Service Act. Federal policemen were attacked and badly mauled. The crowd then broke into the government registrar office and after destroying documents and doing much damage, set the building on fire. The calling out of the militia quelled the outbreak. None of the miscreants were captured or injured.

## COUNCIL DECIDES MANY SMALL MATTERS

(Continued from page 1)

ning to about \$30.00. A more favorable scheme was that the bridge should be widened and have a double handrail, which it was believed would be just as effective as a safety measure and would be far less expensive.

The council decided to remove the old irrigation flume running along Richter Street from Glenn Ave. to Bernard Ave., as it was not used and was a danger as well as an eyesore.

Ald. Meikle reported that he had interviewed the Fire Brigade with reference to their request that rigs be forbidden to tie up

on the main street, especially at the corner of Water Street and Bernard. It had been decided that the tie posts on the eastern side of Water St. should be removed to Bernard Ave., which would prevent Water Street being obstructed by rigs being tied on both sides.

Before adjourning, the Mayor announced that the Kelowna members of the Great War Veterans' Association had decided to hold a dance on the 25th April to raise funds. He had been informed by Ray Ritchie that as a number of them had lots of spare time they would be pleased to undertake the outfitting of their rooms themselves and thus save the time of the business men in charge.
